

NAME

tz – audio from plain text

SYNOPSIS

tz mel [[[*wavfile* ...] *infile*] *outfile*]
tz guitar [*infile* [*outfile*]]
tz stick [[*infile* ...] *outfile*]
tz stack [[*infile* ...] *outfile*]
tz stretch [*factor* [*infile* [*outfile*]]]
tz repeat [*count* [*infile* [*outfile*]]]
tz trim [*threshold* [*infile* [*outfile*]]]
tz mono [*infile* [*outfile* ...]]
tz harmonics [*label*]
tz inspect [*file*]
tz riff2aiff [[*infile*] *outfile*]
tz aiff2riff [[*infile*] *outfile*]
tz tag [*infile* [*datafile* [*outfile*]]]

DESCRIPTION

Tonbandfetzen is a collection of command-line tools that allow you to compose music based on audio fragments generated from plain text input. See the individual man pages for more information.
